Code	Description
CEA35	ELECTRICAL COOKER 350 L.

Tecnic description

Sizes:
Exterior: 1.210 x 1000 x 950 mm.
Tank: 1.000 x 700 x 500 mm.
Capacity: 350 liters.
Construction:
Tank, superior part and lid made of inox AISI 316.
The rest made of inox AISI 304.
Tank made of sheet 3 mm.
Ceramic ball blasted finish.
Compensated tilting lid. From 10° aperture, the lid keeps its position automatically.
Antivibrator adjustable feet M20.
Water feeding 3/4" inox.
Valve of purge 1 1/4" inox.
Exterior isolation : isolation layer called wool of rock 60 mm.
Three electric stainless steel resistances of 6000W each one
Thermal oil
Stoppers to empty and feeding oil tank.
Electric switchboard of remote control, Handling 24 VAC
Protected motor pump. Running luminous indicators. General switch, push-buttons. Electronic digital temperature regulator and temperature sensor PT-100, for oil bath
Electricity: 18 Kw
Electronic digital temperature regulator and temperature sensor PT-100, for water bath
